Memorandum

DATE: April 4, 2022
TO: All Employees
FROM: Brendan Shannon, Director of Human Resources
SUBJECT: COVID-19 Testing Update

As you know, COVID-19 rates have fallen significantly which has allowed MTS to cease mandatory testing and loosen COVID-related restrictions. As the eminent danger of COVID infection has subsided, so have the number of employees taking advantage of MTS's free onsite testing. Accordingly, MTS is reducing the days/hours of onsite testing effective April 5, 2022. Please see the revised hours on the attached flyer for further details. Keep in mind that on-site testing is for employees who are well (not experiencing symptoms). All employees must continue to follow the established return-to-work protocols if they become ill, [are exposed](#) to COVID-19, or [test positive](#).

At-home rapid antigen tests are easily available for free through the USPS. Use this link to order free at-home rapid COVID-19 tests: <https://special.usps.com/testkits> Antigen tests are also widely available from drug stores and other retailers. As previously announced, MTS has a limited quantity of rapid COVID-19 test kits for distribution to employees who are unable to procure them through other means. Contact your department head for further details.
